Welcome to a new session about

Using Azure private Marketplace

Video Type: Nugget

Video Category: Preview

<https://cloudblogger.at>

Session Agenda

- Azure Marketplace?
- Who can use the Marketplace?
- Why Azure private Marketplace?
- Demo

<https://cloudblogger.at>

Azure Marketplace

- Central store for IaaS, PaaS, and SaaS Solutions
- Integrated into Azure Portal also for Government
- A partner can publish solutions
- Validation process by Microsoft to publish the offer

<https://cloudblogger.at>

Who can use the Marketplace

- Permitted for the RBAC role Owner and Contributor
- Custom role possible too
 - Microsoft.Marketplace
 - Microsoft.MarketplaceOrdering
 - Microsoft.MarketplaceApps

<https://cloudblogger.at>

Why Azure private Marketplace

- Central management for solutions
- Preventing unwanted application deployment
